WHY SPONSOR THIS YEAR'S CONFERENCE?

Typical conferences focus on improving the areas related to work. While that's great, the ELEX conference focuses on the areas of life we may have been missing BECAUSE we are spending so much time at work. This includes securing and protecting our self-care and financial futures, learning about and planning for homeownership, better-balancing family and life, being a better parent or spouse, and much more.

Hosted by NursesBond, a membership organization dedicated to bringing healthcare professionals together to network, bond, and prioritize self-care, our favorite part of the ELEX conference is the opportunity to socialize and network with like-minded professionals.

As a sponsor, you will showcase your products/services to the conference attendees, who are your potential clients. You will have an interactive time between sessions to connect with them one-on-one and will build a great relationship with them.

Audience Profile:

Attracting over 350 healthcare professionals in education, leadership, and entrepreneurship ready to take their careers and businesses to the next level.

Average Education Level: Bachelor's degree

ELEX Conference brings your products and services to all levels of professionals that will be in attendance and on our database.
